

IMPORT HEALTH STANDARD FOR THE IMPORTATION INTO NEW ZEALAND OF FROZEN INEDIBLE DEER BY-PRODUCTS FOR FURTHER PROCESSING FROM NORWAY

1. IMPORT HEALTH STANDARD

Pursuant to section 22 of the Biosecurity Act 1993, this document is the import health standard for the importation into New Zealand of frozen inedible deer by-products for further processing from Norway.

2. PERMIT TO IMPORT

2.1 A permit to import is not required for the importation into New Zealand of frozen inedible deer by-products for further processing from Norway.

2.2 Authorization, in the form of biosecurity clearance, for the importation into New Zealand of frozen inedible deer by-products for further processing from Norway will be given at the border after verification that the conditions within this import health standard have been met by the importer.

3. INFORMATION TO BE SUPPLIED BY IMPORTER

The importer shall supply the following information:

3.1 name and address of exporter,

3.2 name and address of manufacturer,

3.3 description and type of product,

3.4 official number of premises (for meat/meat by-products).

4. REVIEW OF IMPORT HEALTH STANDARD

The import health standard may be reviewed and amended if there are changes in New Zealand's import policy, or the animal health status of the originating country, or for any other reason, at the discretion of the Director of Animal Biosecurity.

5. DEFINITION OF TERMS

By-products: this refers to any item imported for further processing and not intended for direct human consumption within New Zealand. Such items may include spleens, pancreas glands, tracheae, pizzles, sinews, testicles, tails etc.

6. DOCUMENTATION ACCOMPANYING THE CONSIGNMENT

A copy of the import health standard, together with all the required information and ORIGINAL certification, which must be in English, must be presented at the New Zealand border when requesting clearance of the consignment.

7. IMPORTER'S RESPONSIBILITIES

- 7.1 All costs associated with the importation, which may include transport, servicing and health certification must be borne by the importer.
- 7.2 Once the consignment has been cleared for entry, it is the importer's responsibility to ensure that the consignment complies with requirements under the Meat Act (1981). A set of guidelines outlining these responsibilities may be obtained by writing to: Import Management, Animal Biosecurity, Biosecurity Authority, Ministry of Agriculture & Forestry, PO Box 2526, Wellington, NEW ZEALAND.
- 7.3 The products must not be sent for further processing to any premises where feed suitable for ruminants is produced under the Biosecurity (Ruminant Protein) Regulations 1999.
- 7.4 If the products are used to manufacture animal food (e.g. petfood) or fertiliser, the consignment shall be labelled in accordance with clause 14(c)(ii) of the Biosecurity (Ruminant Protein) Regulations 1999.

8. ELIGIBILITY FOR IMPORTATION

During transport to New Zealand, the products must have been frozen to -18°C.

9. HEALTH CERTIFICATION

Each consignment must be accompanied by a certificate issued by an official government veterinary officer which states that:

- 9.1 Foot and mouth disease and rinderpest have not occurred in Norway during the previous 12 months.
- 9.2 The products were derived from animals that were subjected to ante-mortem and post-mortem veterinary inspection and were found to be free from disease.
- 9.3 The products were processed in premises under the supervision of the Controlling Authority and in accordance with Norwegian regulations.

10. BIOSECURITY CLEARANCE

A Biosecurity Clearance will be issued provided the documentation is in order.
